Logistics center with 3,000
m2 of warehouse dedicated
to small tackle

Grupo Eurored is a group of companies with more than 45 years of experience dedicated to the design and manufacture of fishing gear, as well as installations and integral aquaculture services.

Company Divisions

Fishing

More than 45 years' experience dedicated to the design and manufacture of fishing gear, aquaculture and marine hardware.

We have a multidisciplinary team of net professionals accompanied by a technical department specialised in design and manufacture of all types of fishing and aquaculture equipment.

Aquaculture

The Eurored Group is committed to innovation and technology, developing comprehensive solutions aimed at the aquaculture industry of a sustainable nature and based on the highest standards of safety and quality.

Workshop & Supplies

From our workshop and supplies department we offer tailor-made solutions to cover the specific and detailed needs of our customers.

**GRUPO
EURORED**

We manufacture any kind of nets (pelagic, semi-pelagic, bottom trawls, outrigger nets, etc) always at the cutting edge and developed hand in hand with our customers. In addition, we supply everything you need for fishing operations: COTESI nets, ropes, stays, BRIDON cable, flotation, CROSBY GROUP marine hardware (CROSBY, TRAWLEX, GUNNEBO), longline material, etc.

**Everything that the fishing industry
needs for the development of its
activity**

Fishing & Netting

LONGLINE
FISHING

LONGLINE FISHING

We develop integral solutions for longline fishing, both surface and bottom solutions, adapting the rigging and hooks to the type of fish to be caught. We work with mother lines of different thicknesses depending on the type of catch and the waters in which the work is to be carried out.

We have a large stock of materials necessary for longlining as hooks, Nylon monofilament, stainless steel rope, among others.

Fishing & Netting

PURSE SEINE
FISHING

PURSE SEINE FISHING

Specialized in design and manufacture of purse seine fishing solutions with the highest levels of quality and operability.

We use top quality materials and components in the rigging with the best characteristics in terms of high tenacity to minimise deformations, and resistance to avoid tears and abrasions.

Fishing & Netting

SMALL TACKLE
FISHING

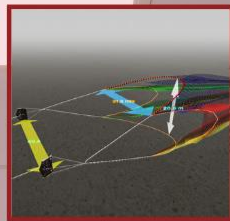

SMALL TACKLE FISHING

In addition, we supply all types of nets, as well as cordage and components for the development of small fishing tackle of our leading brand ORCA Red.

Our branch in La Coruña, with a logistics warehouse of 3,000 m², provides immediate service and deliveries to all our customers in Spain, Portugal and France.

Nets, ropes, marine hardware, floats, and everything necessary for fishing activities. We are constantly adding new products and technology to our catalogue, such as: dolphin repellers, fishing gear locators and retrievers, etc.

Technical Support

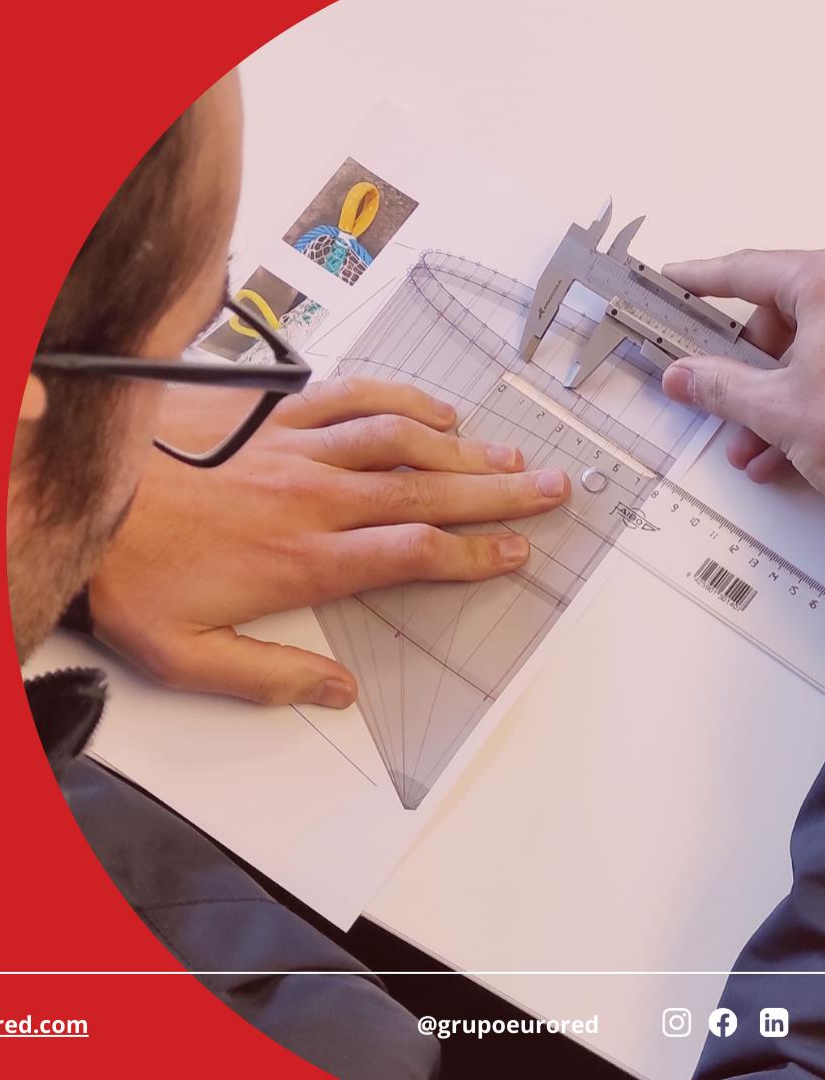

Our professional team will advise you at every phase to meet your specific needs, providing tailor-made solutions ranging from the supply of the best and most suitable materials, project development, plans and sketches, through to customised manufacturing.

Grupo Eurored offers the most appropriate technical solutions to carry out your project

R+D+i

Research,
Development
& Innovation

Our in-depth knowledge of the sector allows us to detect recurring needs that have not yet been solved and to develop efficient measures to meet the industry demands.

We continually invest in the development of technological parts and new materials that make your operations more efficient and safe.

**Specialist in the development of
productive optimized solutions
according to industry trends**

Operations

Security of supply and the quality of our products form a part of our corporate DNA.

We have 8 loading docks and more than 14,500 m2 of warehouse space and with all the necessary to be able to offer and maintain a comprehensive, tailor-made solution to meet your needs.

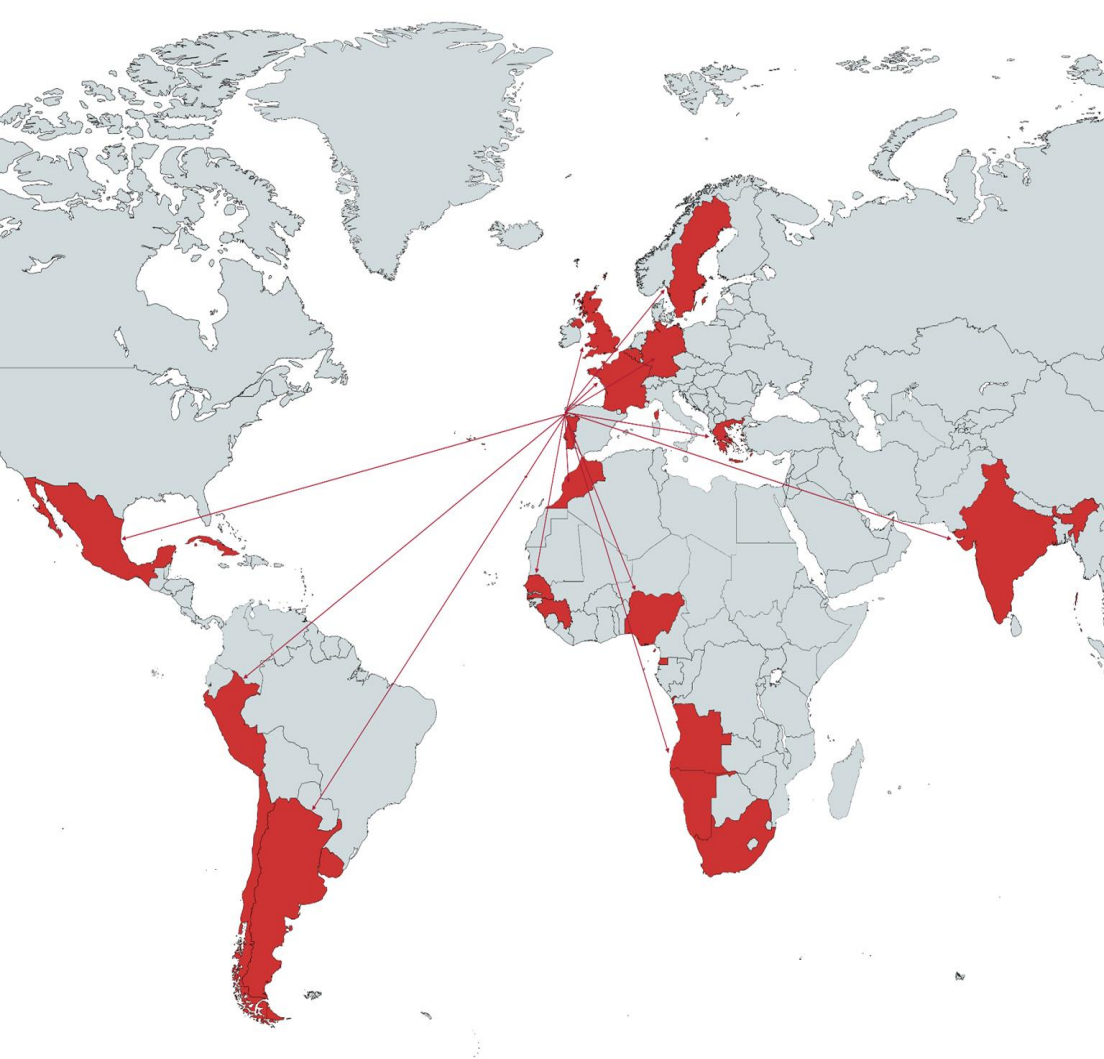

Our logistical capacity allows us to have a permanent stock with top-level references

Workshop & Supplies

From our workshop and supplies department we offer tailor-made solutions for the nautical and maritime industry, as well as structural cables, working as operations, logistics and fishing department support.

**In our workshop, we have the
ability to manufacture any
custom solution according to
your demands**

LOGISTICS

Grupo Eurored is present in many different international markets thanks to its extensive business trajectory.

We have an import-export department specialized in logistics and customs management.

We operate globally, shipping our products to several parts of the world.

We are qualified to provide an excellent international service

Grupo Eurored is more than a supplier

We are 100% service oriented, committed to a close relationship with our customers by identifying the key stages throughout the lifecycle of our products and incorporating value-added services in all our business lines to provide the best solutions for each client.

The constant research and innovation in our production processes leads us to offer the national and international market products with the highest quality standards, with tailor-made solutions and services developed for our customers.

**GRUPO
EURORED**

**Always at
your service**
